PROJECT EXPERIENCE

Discover the Magic of Greece | Front-End Developer Jul 2025 - Aug 2025
SheCodes | Remote

- Developed an immersive single-page travel website showcasing Greek culture, implementing interactive flip cards with animation effects and scroll-triggered animations for enhanced user engagement.
- Built a fully responsive layout using mobile-first approach with CSS Grid and Flexbox, ensuring seamless adaptation across all device sizes including tablets and mobile devices.
- Implemented advanced JavaScript functionality including smooth scrolling navigation, scroll-to-top button, and success modal for newsletter subscriptions with form validation.
- Created custom UI elements including styled scrollbars, SVG favicons with Greek motifs, and parallax scrolling effects to deliver a visually cohesive thematic experience.
- **Tech Stack:** HTML5, CSS3, JavaScript, Google Fonts, Font Awesome.

Terra Nova Eco Farm Website | Team Lead & Full-Stack Developer Mar 2025 - Jul 2025
Sistech | Greece, Athens

- Led an international team in designing and developing a responsive multi-language website for a Greek eco-farm hotel, managing the project from concept to deployment.
- Developed the UI/UX in Figma and built a pixel-perfect front-end using HTML5, CSS3, and JavaScript, incorporating interactive sliders and flip cards.
- Implemented a multilingual interface (English/Greek) and integrated a functional contact form via Formspree with automated email notifications.
- Ensured cross-device compatibility through mobile-first responsive design and optimized performance with clean, maintainable code.
- **Tech Stack:** HTML5, CSS3, JavaScript, Figma, GitHub, Formspree

Cafe Lavande Patisserie Website | Front-End Developer Nov 2024 – Mar 2025
Sistech | Greece, Athens

- Engineered core e-commerce functionalities for a patisserie site, building a dynamic shopping cart with state persistence in Vanilla JavaScript.
- Built a fully responsive, pixel-perfect user interface with HTML5, CSS3, and JavaScript, maintaining strict brand identity on all platforms.
- Developed interactive UI components (modals, product cards) and enhanced site performance by implementing lazy loading and semantic, SEO-optimized markup.
- **Tech Stack:** HTML5, CSS3, JavaScript (ES6+), Git, Google Maps API
- **Links**: https://karinar-ch.github.io/CafeLavande/

PROFESSIONAL EXPERIENCE

Front-End Developer
Hackiko.ai | Remote   **Aug 2025 – Present**

- Develop and implement new UI components for a web application using HTML, CSS, JS
- Optimize performance and ensure responsive design for correct display on all devices.
- Collaborate with designers, back-end developers to improve the user experience (UX).

Specialist in the Department of Practice and Employmen
Inspector in the Regime-Secret Department
Specialist in Civil Protection
National University "Odessa Maritime Academy" | Ukraine, Odesa   **2013 - 2022 (9 years)**

- Established a robust partner network by securing 50+ contracts with international crewing companies, creating direct employment pathways for 8,000+ graduates.
- Implemented an IT solution that automated the tracking of annual internships for 8,000+ cadets, reducing administrative workload by 20+ hours per week.
- Developed comprehensive statistical and analytical reports for university leadership based on data from 8,000+ cadet internships.
- Significantly enhanced the institution's safety culture by delivering 100+ hours of training, developing 10+ procedural manuals, and launching an emergency alert system, which increased staff awareness by 90%+ and involved equipping shelters for 10,000+ staff and cadets.
- Launched an eco-friendly recycling system that fully offset its own operational costs, creating a cost-neutral disposal process.
- Prepared 50+ reports and ensured compliance with secrecy protocols while effectively interacting with the Ministry of Education, State Emergency Service, and state security agencies, including the Security Service of Ukraine and State Counterintelligence.
